25-SEP-04 11:20 UT: This was the first image from Peter DL6NL a.k.a. Sharky, after finding my beacon

Subsequent image from Sharky showing the whole crown.

25-SEP-04: Nice report from Wolf DL2WRJ. It shows the end of the QRSS10 section, and "73 DE" in H

This second one from Wolf shows the "PL" ending the HELL section, and a very clear image of my "cro

Another from Wolf, showing the QRSS10. Notice that after the installation of the strap-on crystal heater,

The 25'th was a busy day! Another from Sharky, showing the "crown" in fine detail using Argo's QRSS1

25-SEP-04 16:59 UT: Here's what the "crown" looked like in Norway, as seen by Steinar LA5VNA.

27-SEP-04 16:15 UT: Interesting "crown" from Uli DF5SF. Duplicate steps indicates Doppler effect due t

27-SEP-04: Nice image of the Hell section from Uli DF5SF. It's good to see no trace of sloping on the lin

29-SEP-04: The crown trademark, from Peter PA1SDB. This is what it looks like in Argo's "3s dots, slow

...and this one from the evening of the 29'th shows the crown in the "QRSS 10s, normal" mode.

29-SEP-04: This second one from Peter shows the "G0" of my call in the Hell section. Notice that in Arg

29-SEP-04: Heinz OE5EEP returned from holidays and sent this image, his first in this test series. Click
